

Nimbus Cloud Technologies

Code of Conduct

Purpose

This Code of Conduct describes the standard of behavior expected of everyone at Nimbus Cloud Technologies, in order to maintain a respectful, honest, and legally compliant workplace.

Integrity and Honesty

Employees must act honestly in all business dealings, including with customers, vendors, and each other. Falsifying company records, expense reports, or performance data is strictly prohibited.

Conflicts of Interest

Employees must disclose any financial or personal relationship that could reasonably be seen to influence their business decisions, including outside employment, board seats, or a close relative working for a vendor or competitor.

Gifts and Anti-Bribery

Employees may not offer, give, or accept gifts, payments, or favors intended to improperly influence a business decision. Modest, customary business hospitality is acceptable if disclosed to a manager on request.

Confidential Information

Confidential company and customer information may only be used for legitimate business purposes and must not be shared outside the company, including after an employee leaves the company.

Respectful Workplace

Employees are expected to treat colleagues, customers, and partners with respect. Harassment, discrimination, and retaliation are addressed under the Anti-Harassment and Non-Discrimination Policy.

Reporting Concerns

Employees who witness a violation of this Code should report it to their manager, HR, or through the confidential ethics hotline. Retaliation against anyone who reports a concern in good faith is prohibited.

Enforcement

Violations of this Code may result in disciplinary action up to and including termination, and may be referred to law enforcement where the law requires it.
